

7. Governança global: análise internacional

Nível: Mestrado/Doutorado

Pré-requisito: Não tem

Créditos: 2

Ementa:

A globalização tem transformado a sociedade internacional com um ritmo sem precedentes. As relações internacionais têm deixado de ser um âmbito de relação interestatal para se converter em um espaço político com desafios e atividades de dimensão global na sua natureza como na sua extensão geográfica. As necessidades e formas de governo neste novo espaço político emergente tem dado lugar a governança global. O estudo dos atores, internacionais, instituições e as suas implicações no processo da governança global, com o desenvolvimento de uma capacidade intelectual para as soluções globais constituem o objetivo da disciplina.
